

# Sprint Mobile Office Solutions Let Employees Work Virtually Anywhere, Anytime

Mobile employees represent an ever-increasing percentage of the workforce and will soon outnumber traditional office-based employees. In order to be successful, mobile workers need reliable, secure access to the same information, tools, and people as their traditional counterparts, regardless of device, access method, or location. That's why Sprint developed industry-leading Mobile Office Solutions to help enterprises extend the workplace to empower this critical workforce today and enable continued success in the future.

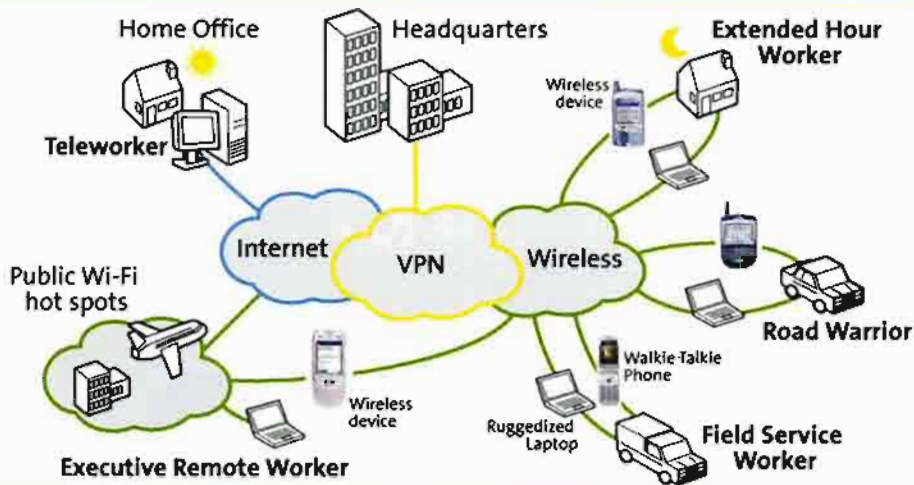

## Limitless Productivity, Reliable Security

Sprint Mobile Office Solutions extend the workplace by enabling mobile employees to be productive and accessible anywhere, anytime. Using a number of advanced, innovative services, Sprint provides employees with reliable, secure, cost-effective mobile access to critical company resources via a broad range of devices and transport methods. Customers and co-workers can always reach employees, ensuring superior service, effective collaboration, and excellent responsiveness regardless of physical location.

**Give mobile workers access to all the tools and information available in the office**

**Sprint is uniquely positioned to address this challenge with a converged suite of specialized wireline and wireless products and services.**

## Powerful, Flexible Solutions

A full suite of industry-leading services allows Sprint to configure Mobile Office Solutions for an enterprise's specific needs — today and as challenges and opportunities arise in the future.

**Sprint Extended Workplace<sup>SM</sup> Package.** Integrated wireless/wireline remote access via a single connection manager with an industry-leading security/policy management framework.
